# What Is an Organization News Site

---

# News and SharePoint

**Modern SharePoint encourages news creation in all sites**

- Team sites
- Communication sites

**Not all news are of authoritative source**

- News from a community site
- Vs.
- News from the official intranet

News from  
organization news  
sites will have a visual  
cue

Color block with  
site title

Users can instantly  
distinguish official /  
authoritative
